TRIP PROFILE

This fully supported tour uses a mix of roads ranging from very silky smooth roads of the Transalpina to country lanes and minor roads. This is a road bike trip and you will be fine on your favourite carbon steed in Romania. We will provide good quality road bikes as hire options. Romania is great terrain for road biking, and most of the roads we ride are in better condition than western Europe or the UK but if you want to bring a gravel bike you are very welcome. There are climbs most days and a few long days going upwards so you should make sure you have enough gears (compact cranks and a 30+ tooth rear cassette at the back are recommended). We start riding in Cinsor, a four-hour drive north of Bucharest and end in Maldaresti, which is three hours west of Bucharest.

We have five full days of cycling plus a warm-up ride on day one and the full distance is approximately 500km with just under 7000 metres vertical. Our biggest day is Day 6 when we ride the Transalpina - the full distance is 139km with 3000 vertical metres and as it is at the end of the ride we can easily tailor the day for each rider and make it shorter and easier if necessary (or longer if you want). Other days range from Each day we ride for 70-100km with 500-1800metres climbing each day. As mentioned, the big climbs are the Transfagarasan (1850m vertical) on Day 2 and Transalpina on Day 6. Otherwise, we ride mostly on undulating roads, rolling through the countryside and villages. On most riding days we start after breakfast at around 9 am and expect to ride for between 3-4 hours, with water stops. Lunch will either be en route or at our destination. We always hope most riders will complete the full distance but there are a few shorter options and it is possible to skip the big climbs. We usually expect you to be able to ride comfortably at 23-25kph+ on the flat and average 18-20kph on hilly days. As we sometimes ride at different speeds, this will vary depending upon how the group feels on the day. Normally the guides will ride through the group to make sure everyone is ok and make sure everyone knows where each rest stop is located so we can regroup and visit sites together. We never drop anyone or leave people riding alone and always encourage our groups to ride together at sensible speeds so everyone can enjoy the riding, take in views and immerse themselves in their surroundings. Faster, fitter riders can go ahead and regroup at designated meeting points and if you are having a bad day (remember a bad day on the bike is still better than a good day in the office), there is always the support van close at hand.

Suitability: This trip is suitable for intermediate and advanced level cyclists and we expect participants to be regular riders or at least active people with a good fitness level. As the riding is not very technical and traffic is light it is suitable for newer cyclists as long as you have a good fitness level. Overall, we will ride 500km (310 miles) and climb just under 7,000 metres (22,000feet) in 5 ½ -days.

Biking Conditions: This tour follows a range of roads mostly following quiet minor roads, a few country lanes and one National road (Transalpina).

Cycling Days: We have 5 1/2-riding days, with 3 days riding point to point and 2 looped rides. Usually, there will be one or two main stops planned each day for visits and local cultural experiences and several short stops to regroup, refuel or take-in-the-views before we reach our finish point.

Accommodation We use a range of beautiful accommodation including restored mediaeval guesthouses, *4 castles and 3-4* traditional rural hotels. The accommodation is 3-4 star level and of excellent quality.

Day 1 Arrival day - Transfer from Bucharest Airport/Hotels to Brasov city/Cincșor village

We will meet you at Bucharest Airport (for morning flight arrivals landing before 9 am) or pick you up from your hotel in Bucharest and transfer to Cincșor (total transfer time 4 hours) where we start our adventure. If you are arriving on a flight that lands after 10 am we recommend you arrive a day earlier and stay a night in Bucharest (or in Brasov which is on the way), otherwise you will need to take a private transfer and join us later. From Bucharest, we drive directly to Cincșor, where we will be staying at the Cincșor Guesthouse, a charming former Protestant Saxon School now a comfortable hotel. Cincșor is a quiet and pretty village and we will aim to arrive in time for a warm-up ride in the surrounding countryside to get you used to the bikes and terrain and a briefing from your guides. There should be time to relax before our welcome dinner.

Day 2 From Cincșor to ride the Transfagarasan

Our Romanian cycling adventure gets off to an incredible start as we get to ride the legendary Transfagarasan, which according to a recent report in Top gear magazine is the World's best alpine road. The riding starts right out of the hotel door, which is the way we always like to start, and you will enjoy a gentle 35km through the lovely Transylvanian countryside to warm up before the Transfagarasan comes into view. We will make a stop before setting off to conquer the

mighty Transfagarasa. It is a 25 km climb, up to 2000m altitude at Bălea Lake and although long, the climb is not crazy steep and the views are truly sensational as we wind up towards the top. The reward at the summit is one of Romania's amazing natural wonders, Bălea Lake is a spectacular glacier lake carved into the rugged stones of the Făgăraș Mountains, which are also known as the 'Transylvanian Alps'. We will all ride up at our own pace and enjoy lunch by the lake before regrouping for the breathtaking descent down to Cartisoara where our van is waiting for the shuttle back to Cincsor or an optional spin back to the hotel.

Day 3 Cincsor to Sighisoara

After a typical Romanian breakfast, we will hit the road for a superb ride to discover the Transylvanian Highlands. We will pass the lovely Cincu village with its fortified church and ride through the extraordinary landscapes of Transylvania with the Carpathian Mountains providing a spectacular backdrop. Today's ride is through rolling countryside with a few small hills but nothing to compare with the Transfagarasan. We pass many small villages as we ride along country backroads and alongside the Hartibaciu River riding through what is known as the Brasov-Sibiu-Sighisoara, cultural triangle. We also pass Bradeni, located on a pretty lake and also boasting an impressive fortified church dating back to the 13th Century, before arriving in Sighisoara. We should arrive in time for lunch and have plenty of time to explore Sighisoara, which is one of the best-preserved mediaeval towns in Europe and included in the UNESCO World Heritage list as one of the last living mediaeval cities. Dating back to the 12th century, Sighisoara was founded by German craftsmen and merchants known as the Transylvanian Saxons who were invited to Transylvania by the King of Hungary to settle and defend the frontier of his realm. Over the centuries the city has played an important strategic and commercial role at the edges of Central Europe and still retains a mediaeval charm and atmosphere rarely found in Europe anymore.

Day 4 Sighisoara to Sibiu

After an excellent medieval breakfast, we again ride right from our hotel and out into the Romanian countryside following secondary roads with very little traffic along the following a secondary scenic route along the Hartibaciu valley through the small town of Biertan, one of the most important Saxon villages boasting another impressive fortified church and a UNESCO World Heritage listing. You will feel the history and heritage of this fascinating part of the world and it is a real privilege to be able to ride through such a beautiful and interesting country. Today we ride into the historic town of Sibiu and you will have the option to transfer the last 25km and avoid the traffic or ride to the hotel. Sibiu is a delightful place to spend a couple of nights with its noble Saxon history, art-nouveau facades and gold-embossed church, countless museums and even more coffee houses to relax apres-ride

Day 5 Sibiu - Paltinis resort - Sibiu

After breakfast we will have a beautiful ride to the Paltinis resort, this is a superb climb to an old mountain resort which has some challenging parts but is well worth the effort. The return will be an amazing descent right into town and the 'Open Air Village Museum' of Sibiu, one of the largest in Central and Eastern Europe. Here we can have a great meal and enjoy some historical houses and workshops of the traditional Romanian folk culture from the pre-industrial era. Over 300 houses and other buildings are situated in the forest around two artificial lakes with over 10 km of walkways between them. We will later reach the same hotel in Sibiu and we will leave you to enjoy the medieval city and have a great dinner on your own. There is a shorter, easier option and of course, anyone that wants a day off the bike, perhaps to save their legs for tomorrow's 'Queen Stage,' can have a lie-in and wander around Sibiu at leisure. Sibiu is a great town to go off and explore with lots to do and see and some great places to eat so we leave you free to choose your dinner venue.

Day 6 The Transalpina experience from Sibiu to Maldaresti

Our last day riding the "Queen Stage" of our tour is the classic Carpathian Mountain climb and the main challenge of our week in Romania. The Transalpine is known locally as the King's Road and is the highest road in Romania. The road was built under the rule of King Carol II in the 1930s and rebuilt during World War II by German troops. Similar in length and ascent to many classic alpine passes, the Transalpina is a mythic ride for local cyclists and provides a beautiful challenge for our final day. We will transfer to our start point in Saliste and enjoy a few hours riding rolling terrain before the road pitches upwards and snakes upwards around multiple switchbacks to its highest point at the Urdele Pass at an elevation of 2,145 m above sea level. The climb is long and mostly gradual, interspersed with a few steep sections with the last part spectacularly scenic as we reach the top. The road surface is really good, the traffic is usually light and the views are simply amazing. We rate the Transalpina right up there with any of the famous climbs in the Alps and if the Transalpina was a climb in France it would be world-famous and, each of its numerous switchbacks would be named after a former winner and the road would be awash with amateur cyclists. Here in Romania, we have the road mostly to ourselves and can enjoy the ride and jaw-dropping views without worrying about being overtaken by a pro-peloton or enthusiastic group of amateur riders. As it is a long day with a serious 3,000m of elevation and some high altitude cycling to get through, we don't expect everyone to ride at the same speed. Most riders will have their own goals for the day and our van is always on hand to pick up weary riders. Once over the pass and across the rolling plateau, it is a scintillating and fast 20km descent down into Novaci where we regroup for some celebratory drinks before transferring to our hotel Maldaresti. We end our incredible road biking adventure at our hotel in a lovely restored manor house in Maldaresti village, near Horezu, where we will enjoy a farewell dinner and take the opportunity to sample some wines from the nearby Dragasani vineyards. We are sure you will raise a glass to Romania and agree with us that this must be the best cycling destination in Europe that nobody has heard of and we hope you will come back.

Disclaimer: The adventure cycling tours we operate often go beyond the beaten track, and the countries where we ride are not always predictable. Due to these reasons, it is occasionally necessary to reroute or update itineraries. Our guarantee is that we will not change a trip unless for safety or to improve it. Our listed hotels are always accurate at the time of writing, but should we have to change any hotel, it will always be for a similar or better one.

NUTS & BOLTS

Bikes

Because some people can't imagine going on a trip without their own beloved bicycle, we do not provide them as part of this tour. However, you can hire bikes locally for the price listed in the tour pricing section.

If you bring your own bike, please make sure it is a road bike in good mechanical order.

Bike Repairs

Basic spares and tools are carried by the guide and on the support vehicle, though we cannot guarantee having spares for every conceivable problem. Carrying a basic tool kit, a spare tube and a pump while riding is recommended.

Safety

Wearing a helmet is required on all our biking adventures and is non negotiable. If you do not wear a helmet you will not be allowed to cycle. Your tour leader is trained in first aid and

emergency rescue, but to a large degree you must be responsible for your own safety while riding. It is therefore compulsory that you take out travel insurance that will cover you for a mountain biking tour.

Guides

You will be led by a local English-speaking guide and if the group is 9 people or more we will add another guide to the tour. All our guides are well informed in the history, culture and religions of the area where you are biking and are skilled at passing that knowledge on to you. Your guide is also medically trained and an experienced cyclist, able to handle most minor repairs en route.

THE NITTY GRITTY

Passports and Visas

Passports and Visas Romania is an easy country to enter. It is part of the EU so easy to access for Europeans but not yet in the Schengen zone. Most countries in the Americas including U.S. and Canadian as well as Australian and British citizens may enter and remain in Romania without a visa for up to 90 days total. It is essential when entering Romania to present a valid passport with a minimum validity of six months from the date of entry into the country.

Covid (Updated March 2022)

All restrictions related to COVID-19 ceased on 9 March. There is no longer a requirement to quarantine, to test before entering Romania. Further information on entering Europe can be found on the Reopen Europe website here: <https://reopen.europa.eu/en>.

Health

Health conditions in Romania are good, especially in the cities. In recent years, the range of health services has increased and become more modern. Hospitals and clinics provide proper care, but we recommend taking out travel insurance. There are no compulsory vaccinations for entering Romania. ~~~

Weather

Romania has a temperate climate, similar to the northeastern United States, or some parts of northern Europe, with four distinct seasons. Spring is pleasant with cool mornings and nights and warm days. Summer is quite warm, with extended sunny days. The hottest areas in summer are the lowlands in southern and eastern Romania but temperatures are always cooler in the mountains. Autumn is dry and cool, with fields and trees producing colourful foliage, much like New England. Winters can be cold, especially in the mountains. While not the rule, abundant snowfalls may occur throughout the country, from December to mid-March. Our trips typically start in May and run until October and you should expect temperatures as low as 15C/60F in Spring/Fall (Autumn) with cool mornings and evenings but warm in the daytime. You should pack some warm and waterproof clothes if travelling at this time of the year as it can rain and probably want arm-warmers, gilet and long pants and bring a few layers and a jacket for the evening. Daytime temperatures in Spring or Fall can vary between 7c (44F) – 17c (65F). Summer is warmer and can get quite hot with longer daylight hours and maximum temperatures of 35c (90F) in August and an average of 23c (73F). Expect to be cycling in shorts and short sleeves.

Food

While not well known abroad, Romanian cuisine is a near-perfect reflection of the country's agrarian roots and cosmopolitan history. Dishes borrow heavily from neighbouring (and occasionally occupying) cultures – Turkish, Hungarian, Germanic and Slavic. The Turks brought meatballs (perişoare in a meatball soup), from the Greeks there is mousaka, from the Austrians there is the şniţel, and the list could continue and some recipes can be traced to the Romans, as well as other ancient civilizations. One of the most common meals is the mămăligă, the precursor of polenta, served on its own or as an accompaniment. Pork is the main meat used in Romanian cuisine, but also beef is consumed and a good lamb or fish dish is never to be refused. Wherever we eat the results are always excellent with a wonderfully rustic, homemade quality, built around staples such as pork, chicken and lamb, but made special through the addition of ample, organic fruits and vegetables. We will make sure you sample a wide range of local cuisines and make sure we visit or stay at lodges with excellent food. Dinners are usually quite meat-oriented with pork or beef and sarmale cu mamaliguta which is a traditional Romanian dish made of minced pork wrapped in pickled cabbage leaves and served with polenta and a chilli. Vegetarians and vegans and other dietary requirements can be catered for but please let us know in advance. ~~~

Drink (Riding and Recreational)

Keeping you completely hydrated is a job we take very seriously. Coldwater, some energy restoring local fruit and soft drinks are included in the tour price while riding. Soft drinks and

other beverages during meals are not included. You may also want to bring electrolytes in powder or tablet form. Alcoholic drinks are available everywhere but are not included. It needs to be pointed out that Romania is one of Europe's biggest wine producers, and while much of the output is aimed at the budget, student end of the market, quality is improving and several wines – both white and red – are worth looking for. The best winemaking regions for whites include the Târnave plateau, north of Sibiu, and Cotnari, near Iași. For reds, look for Dealu Mare (south of the Carpathians, near the Prahova Valley). Murfatlar, near the Black Sea, and Odobești, in southern Moldavia, produce both quality reds and whites. Drăgășani, in southern Romania, is home to one of the country's most promising new wineries, the Casa Isărescu. Another new and highly regarded winemaker is the Nachbil winery, located in the northwest of the country, near Satu Mare. And if that's not enough, pretty much every household makes their own Tuica (pronounced "tsweeka") which is a spirit usually made from plums and flavoured with herbs from their garden or the surrounding area. This is usually drunk whilst being welcomed into the house and after dinner. ~~~

Solo Travelers

SpiceRoads does not require you to pay a surcharge for travelling alone. We will arrange for you to share accommodation with another traveller of the same gender and if we can not match you up we will provide a single room at no extra charge. If you prefer not to share a single supplement is payable to guarantee your single room. The cost of the single supplement is listed above. ~~~

Extra Expenses

We recommend that you tuck away a few extra US Dollars for possible incidentals that might arise. It is always wise to have some paper currency in case of ATM absence or credit card problems. This will save you a lot of unnecessary worries. It is also customary to tip local tour guides and drivers; however, the amount you give should be dependent on the level of service you receive. ~~~

Money

The Romanian leu is the currency of Romania. It is subdivided into 100 bani, a word that means "money" in Romanian. ATMs that accept major credit cards can be found in all sizable towns and cities. It's best to use credit cards as a backup for cash. There are many foreign exchange offices in every city and town and at major attractions. The best currencies to take are EUROS. Costs in Romania are generally much lower than in western Europe or North America and you will find your hard currency will buy you a lot of drinks in Romania. ~~~

Be Aware

Romania remains generally safe, and it's unlikely that you'll have any problems; violent crime against tourists is almost nonexistent and petty crime is much less than in most Western countries. However, take the usual precautions about avoiding rowdy political demonstrations, not flashing money around and being aware of pickpockets in crowded places.
